Our Producers

Meet the local farmers and food producers who make our community thrive

Thompson's Organic Farm

Our family has been farming organically for three generations. We grow seasonal vegetables using sustainable methods, crop rotation, and natural fertilizers.

Location:
Greenfield Valley, 5 miles from town

Methods & Values:
Certified organic, no pesticides, companion planting, natural composting

Davies Artisan Bakery

Traditional sourdough bakery using heritage grains from local mills. Our bread is made with time-honored methods and no artificial additives.

Location:
Main Street, Greenfield

Methods & Values:
Long fermentation, heritage grains, wood-fired oven, handcrafted

About Greenfield Local Hub

We're a cooperative of local farmers and food producers committed to bringing fresh, sustainable, and traceable food to our community.

Our Mission

Greenfield Local Hub exists to strengthen the connection between local food producers and our community. We believe that everyone deserves access to fresh, high-quality food while supporting the local economy and protecting the environment.

By creating a single platform where customers can discover, purchase, and trace locally produced food, we're making it easier than ever to support sustainable agriculture and small-scale food production.

Sustainability
Supporting farming methods that protect the environment for future generations

Community
Building stronger connections between producers and consumers

Quality
Ensuring the highest standards in everything we offer

Why Buy Local?

Support Local Economy

Money spent locally stays in the community, supporting jobs and local businesses. For every £10 spent locally, £50 is generated for the local economy.

Environmental Benefits

Local food travels shorter distances, reducing carbon emissions. Small-scale farms often use more sustainable practices than industrial agriculture.

Freshness & Quality

Food picked at peak ripeness and delivered within hours retains more nutrients and flavor than products that travel thousands of miles.

How We Work

1. **Producers Join Our Cooperative**
   Local farmers and food producers register with us, providing information about their methods, values, and products. We verify their credentials and commitment to quality.

2. **Customers Browse & Order**
   Through our digital platform, customers can discover products, learn about producers, and place orders for collection or delivery with full transparency.

Through our digital platform, customers can discover products, learn about producers, and place orders for collection or delivery with full transparency.

3 **We Manage & Coordinate**

Our hub coordinates orders, manages stock levels, and ensures products are ready for collection or delivery. Producers focus on what they do best - producing quality food.

4 **Everyone Benefits**

Customers get fresh, traceable food. Producers gain access to more customers and simplified logistics. The community benefits from a stronger local economy.

Our Commitments

Full Transparency

Every product comes with complete information about its origin, production methods, and the people who made it.

Fair Prices

Producers receive fair compensation for their work while customers enjoy competitive prices without middlemen.

Quality Standards

All producers must meet our quality and sustainability standards to be part of the cooperative.

Accessibility

Our platform is designed to be accessible to everyone, with features supporting users of all abilities.

Our Impact

25+	2000+	50,000+	£250k
Local Producers Supported	Active Customers	Orders Fulfilled	Revenue to Local Producers
